Exterior façades covered with sandstone, limestone, granite or ceramic tiles stand out from the urban landscape. And, on the inside, the choices in paving, flooring and cladding ensure the creation of unique areas where shopping and leisure intermingle, guaranteeing the best performance for spaces with high traffic.

En el exterior, las fachadas revestidas con lumaquelas, calizas, granitos o porcelánico destacan sobre el paisaje urbano. Y en el interior, las alternativas en pavimentos y revestimientos aseguran la creación de ambientes únicos donde los momentos de consumo y ocio se entrelazan, garantizando altas prestaciones para espacios de alto tránsito.
